

RentTrack – Gym, Academy, PG & Tenant Management App

Final Development Requirements

Project Overview

Build a mobile-first management application for:

- Gyms
- Tuition Centers
- Academies
- PGs
- Hostels
- Rental Properties

The application should manage:

- Members
- Tenants
- Plans
- Batches
- Payments
- Expenses
- Reports & Analytics
- WhatsApp Communication

Backend: Lovable Cloud

Navigation

Duration field

Payment Collection Schedule Logic

1. Frequency determines how often the payment is collected:
 - 3 Months = Every 3 months
 - 6 Months = Every 6 months
 - 12 Months = Every 12 months
2. Collection Day determines the due date within the collection period:
 - First day of the month = Due on the 1st day
 - Last day of the month = Due on the last day of the month
 - Custom day of the month = Due on the selected day (e.g., 5th, 10th, 15th)
3. Example:
 - Frequency: 3 Months
 - Collection Day: First day of the month
4. Installment Due Dates:
 - 01 Jul 2026
 - 01 Oct 2026
 - 01 Jan 2027
 - 01 Apr 2027
5. Important:
 - Frequency controls the interval between payments.
 - Collection Day controls the exact due date of each payment.
 - "First day of the month" does NOT mean monthly collection; it only specifies the due date within the selected frequency cycle.

Custom Fields Support

Admin should be able to create additional fields.

Examples:

- Address
- Emergency Contact
- Aadhaar Number
- Blood Group
- Parent Name
- Occupation

Supported Types:

- Text
- Number
- Date
- Dropdown
- Checkbox
- Multi-line Text

Custom fields should automatically appear in Add/Edit Member forms.

WhatsApp Welcome Message

After saving a member:

Open WhatsApp with a prefilled welcome message.

Template should be editable from settings.

Reports

Display:

- Name
- Show pending 1

- Plan
- Sub-plan
- Expiry
- Status = unpaid or paid
- Amount
- Expired
- Unpaid

Actions:

- View Details
- Mark Paid
- Unpaid

Unpaid Members Section

Show members with unpaid dues for the current month.

Example:

Ahmed - June Unpaid
Rahul - June Unpaid
Arjun - June Unpaid

Frozen Members Section

Display below the Unpaid Members list.

Example:

Ahmed - June Frozen
Rahul - June Frozen

Rules:

- Frozen members must not be included in unpaid totals.
 - Frozen members should be displayed separately.
 - Frozen members should not affect collection calculations.
-

Color Indicators

 Paid

 Unpaid

 Frozen

Business Logic

- Payment history should be generated based on membership duration.
- If a month is paid, show it only in Paid History.
- If a month is unpaid, show it only in Unpaid History.
- If a month is frozen, move it to Frozen status.
- Frozen months must never be included in pending calculations.
- Dashboard and reports must calculate pending amounts using only unpaid months that are not frozen.

Payment Status Confirmation Flow

1. When a payment is marked as Paid:
 - Show a popup with the following options:
 - Send Invoice/Receipt
 - Send Personal Message
 - Skip
2. If the user clicks Skip:
 - Close the popup.
 - Payment remains marked as Paid.
3. When changing a Paid payment back to Unpaid:
 - Show a warning confirmation popup.
4. Message:

"This payment was previously marked as Paid. Are you sure you want to change its status to Unpaid?"

Buttons:

 - Confirm
 - Cancel
5. If Confirm is clicked:
 - Change the payment status to Unpaid.
6. If Cancel is clicked:
 - Keep the payment status as Paid.
 - No changes should be made.

This prevents accidental changes to payment records and provides a clear confirmation before reverting a paid payment to unpaid.

-

Payment History of Single member

- On the detailed member page, provide a dedicated Payment History section to track and review all payment transactions made by that specific member. This allows administrators to easily view payment dates, amounts, payment methods, due payments, and overall payment activity for the selected member.

Show two sections:

Paid History of single member

Display all successfully paid months.

Example:

June 2026

Paid Date: 05-Jun-2026

May 2026

Paid Date: 03-May-2026

April 2026

Paid Date: 04-Apr-2026

Rules:

- Latest paid month appears first.
- Show payment history ID.

- Show paid amount.
 - Show paid date.
 - Green color indicator.
-

Unpaid History

Rules:

- If current month is already paid, do not show it in unpaid history.
- If current month payment is not received, show it as unpaid.
- If previous months are pending, show all pending months separately.

Example:

- July 2026 - Unpaid
- June 2026 - Unpaid
- May 2026 - Unpaid

Each unpaid item should display:

- Month
 - Amount
 - Due Date
 - Freeze Button
-

Freeze Month Feature

Purpose:

Sometimes a tenant leaves temporarily or a gym member does not attend for a specific month and payment should not be collected.

Example:

May = Paid
June = Unpaid

Admin clicks Freeze on June.

Result:

- June 2026 - Frozen

Rules:

- Frozen month remains visible in history.
- Frozen month is excluded from pending calculations.
- Frozen month is excluded from total unpaid amount.
- Frozen month should not be shown in unpaid collection reports.
- Admin can unfreeze later if needed.

Example:

May = Paid

June = Frozen

July = Unpaid

Total Pending Amount = July Only

June must not be included.

Pending Amount Calculation

Include:

- All unpaid months.

Exclude:

- Frozen months.
- Paid months.

Formula:

Total Pending Amount = Sum of all unpaid months that are not frozen.

-
-
-

WhatsApp Rent Reminder

For unpaid tenants:

Send predefined WhatsApp reminder.

Template should be editable from settings.

PLAN + GROUP MODULE — DEVELOPMENT PLAN

1. Core Structure

PLAN & GROUPS

Use this hierarchy:

Plan → Group → Members → Payments

Example:

Plan: Class 10

- Group: 10 A
- Group: 10 B
- Group: 10 C

A Group must belong to a Plan.

A Plan can have:

- No Groups → members can belong directly to the Plan
 - One Group
 - Multiple Groups
-

2. PLAN MANAGEMENT

Add Plan

Fields:

- Plan Name
- Price
- Duration
- Description

Duration:

- Fixed days (30/90/etc.)
- Monthly billing date (1st/5th/etc.)
- USE Duration field LOGIC GIVEN IN ABOVE

Plan List

Show:

- Plan Name
- Price
- Duration
- Total Members
- Collected
- Pending
- Paid Members
- Pending Members
- Frozen Members

Actions:

- View
- Edit

- Delete

3. PLAN DETAIL

When clicking a Plan, open Plan Detail.

The screenshot shows a mobile app interface for a plan detail. At the top, there's a header with a back arrow and an 'Edit' button. Below the header, the plan name '10 weekend batch' is displayed, followed by the price '₹ 700' and a duration '30 days'. The main content area contains several summary cards: 'Total members' with a value of '1', 'Collected' with '₹700', 'Pending amount' with '₹0', and 'Paid members' with '1'. Below these is a 'Pending members' card with '0'. A tab bar at the bottom shows 'Paid (1)', 'Pending (0)', and 'All (1)'. The 'Paid (1)' tab is selected, showing a list of payments. The first payment is from 'rinshad' with ID '8129446936', last paid on '9/1/2026'. It shows a 'Plan amount' of '₹700', a 'Paid' amount of '₹700', and a 'Pending' amount of '₹0'. A green 'Paid' status label is next to the payment details. At the bottom, there's a section for 'Recent payments'.

Show:

- Total Members
- Active Members
- Frozen Members
- Collected
- Pending Amount
- Paid Members
- Pending Members

Tabs:

Members | Groups | Payments

Members

Show all members belonging to the Plan, including members inside Groups.

Show:

- Member

- Group
- Paid
- Pending
- Status
- Expiry

Groups

Show all Groups under the Plan.

Example:

Class 10

10 A — 10 Members — ₹7,000 Collected

10 B — 8 Members — ₹4,900 Collected

10 C — 12 Members — ₹8,400 Collected

Click Group → Group Detail.

Payments

Show payments belonging to the Plan.

4. GROUP MANAGEMENT

Add Group

Fields:

- Parent Plan — Required
- Group Name — Required
- Schedule — Optional
- Capacity — Optional

Example:

Parent Plan: Class 10

Groups:

- 10 A

- 10 B
- 10 C

A Group cannot exist without a Plan.

5. GROUP DETAIL

When clicking a Group, open Group Detail.

Show:

- Group Name
- Parent Plan
- Total Members
- Active Members
- Expired Members
- Frozen Members
- Collected
- Pending Amount
- Paid Members
- Pending Members

Tabs:

Paid | Pending | All

Paid

Show fully paid members.

Pending

Show members with outstanding payment.

Show:

- Member
- Plan Amount
- Paid
- Pending
- Status

Actions:

- Record Payment
- Mark as Paid

All

Show every member with payment status.

6. MEMBER CREATION

When adding a member:

Select Plan

First select the Plan.

Select Group

If that Plan has Groups:

- Show only Groups belonging to that Plan.

If Plan has no Groups:

- Allow member directly under the Plan.

Duration

If Plan selected:

- Automatically apply Plan duration/billing settings.

Allow manual override if required.

7. PAYMENT LOGIC

Collected = actual paid amount only.

Example:

Plan = ₹700

Paid ₹700:

- Collected = ₹700
- Pending = ₹0
- Status = Paid

Paid ₹300:

- Collected = ₹300
- Pending = ₹400
- Status = Partial/Pending

Mark as Paid

For cash/manual payments:

Owner clicks:

Mark as Paid

- Confirm amount
 - Select payment type (Cash/Bank/etc.)
 - Create/update using existing Payment functionality
 - Immediately update Plan, Group, and Member summaries.
-

8. FILTERS

Support:

- Plan
- Group
- Plan + Group

Examples:

- All Class 10 members
 - Only Class 10 A
 - Only Morning Group
-

11. REAL-TIME UPDATES

After recording/marketing a payment as paid:

Immediately update:

- Plan collected amount
 - Plan pending amount
 - Group collected amount
 - Group pending amount
 - Paid/Pending member counts
 - Member payment status
 - Recent payments
-

12. FUTURE-READY ARCHITECTURE

Keep Plan and Group as reusable modules.

Future shared features should be able to work at either level, such as:

- WhatsApp automation
- Attendance
- Fingerprint/biometric attendance
- Reports
- Notifications

GROUP MANAGEMENT/PLAN

Logic: Plan & Subgroup Summary

Displays Total Members, Total Income (paid amounts only), Paid Members, Pending Members, and Frozen Members for the selected Group. If the group contains plans, then same statistics are available separately for each plan, allowing detailed tracking of revenue, membership status, and payment performance. This enables administrators to quickly access paid and unpaid member lists, manage members efficiently, and identify the most active plans, subgroups, or batches from a single dashboard

PAYMENTS

Display all transactions.

Order:

Latest First

Information:

- Member/Tenant Name
- Amount
- Payment Date
- Payment Type
- Expiry Date (Members)

Filters:

- All
- Membership Payments
- Rent Payments

EXPENSE MANAGEMENT

Add Expense

Fields:

- Title
- Amount
- Category
- Expense Date
- Notes

Categorie:

- Rent
- Utilities
- Equipment
- Salary
- Maintenance
- Marketing
- Other

The screenshot shows the 'Add expense' form in the Expense Reports app. The form has a title field with 'Plumbing repair' entered. Below the title, there are two columns: 'Category' and 'Amount'. The 'Category' dropdown menu is open, showing options: Maintenance, Utilities, Repairs (selected with a checkmark), Taxes, Cleaning, and Other. The 'Amount' field has '0' entered. At the bottom of the form, there is a green button labeled 'Add expense'. The app's header shows 'Expense Reports' and 'Track property expenses'. The bottom navigation bar has icons for Home, Plans, Expense, and Reports.

Note : Add an option in the Category section that allows users to create and manage additional custom categories based on their specific business requirements.

-

Custom Fields

Admin can create:

- Member Custom Fields
- Tenant Custom Fields

Supported Types:

- Text
- Number
- Date
- Dropdown
- Checkbox
- Multi-line Text

Subscription & Billing

Add a **Subscription** option in Settings.

The page should show the user's current subscription and available plans.

Current Subscription

Example:

Premium

Test RentalBuddy
30-day trial version

Subscription & Credit Workflow

Two types of plans:

1. Normal Plan

- Example: **Basic — ₹299 — 1/3/6 Months**
- No included credits.
- Customer can buy WhatsApp credits separately.

2. Credit Plan

- Example: **Plus — ₹599 — 1 Month**
- Includes fixed credits, e.g. **100 WhatsApp credits**.

Credit Usage

1 WhatsApp payment reminder = 1 credit

Example:

10 tenants selected

→ 10 WhatsApp payment links/reminders

→ 10 credits used

Additional Credits

Both plans can buy extra credits.

100 Credits → ₹99

500 Credits → ₹399

1000 Credits → ₹699

Purchased credits NEVER expire.

Subscription Expiry

Subscription validity and credits are separate.

Example:

Basic — ₹299 — 3 Months

Purchased Credits: 500

After 3 months:

Subscription → Expired

Credits → 500 still available

When they renew, the subscription becomes active again and their purchased credits remain.
